

## Order Form for *Aging in America*

*Aging in America: The Years Ahead* is a journey across the topography of aging in search of what it means to have a “good old age”. The project traverses the experience of our elders from the “welllderly” to the elderly, as told through a series of intimate vignettes of people who are living the new old age. Through their stories, we laugh and cry as they celebrate their freedom, apply their wisdom, and suffer the consequences of their bodies’ limitations.

In honor of the 10th anniversary of Ed Kashi’s *Aging in America*, the book will be available for the discounted price of \$10 +shipping (*originally \$45*). For orders of 10 or more books, a bulk discount will apply. The companion film is also available for order.

To place an order please contact Ed Kashi’s studio:
